

California's required COVID-19 Positive Test Reporting

Gov. Gavin Newsom in September 2020 signed into law Senate Bill 1159th at requires employers to report all work-related and non-work-related positive COVID-19 test results for their employees. The Dentists Insurance Company and Sedgwick have partnered to streamline the reporting requirements of the state law.

Testing should be reported using the following process for applicable dates when coverage was in place with The Dentists Insurance Company. Positive tests occurring on or after Sept. 18, 2020, should be reported within three business days of knowledge or reasonable knowledge of a positive COVID-19 test.

To complete the reporting, visit tdicinsurance.com/Claims/Workers-Compensation.

Download the form to report positive COVID-19 test reports. Complete the fields, save the form and then email it to COVIDReporting@sedgwick.com.

For the reporting to be considered complete, it must include the following information:

- Client or contract number – enter in “J-6007-Your TDIC Workers’ Compensation Policy Number”
- Client name - The Dentists Insurance Company
- Name of employer contact submitting the record
- Email address of employer contact submitting the record
- Date the employer had knowledge of positive test
- Date you are emailing the Excel worksheet to Sedgwick
- Date test occurred (specimen was collected)
- Location description – name of policyholder
- Location address – office address where the employee works
- If more than one location, duplicate columns A-G on new row
- Location city
- Location – ZIP code
- Highest attendance rate 45 days prior to test result – enter the highest number of employees in the 45-day period preceding the last day the affected employee worked at each specific place of employment

We are here to support you. For questions, reach out to COVIDReporting@sedgwick.com.
