Sacramento, Calif. — The Dentists Insurance Company is pleased to announce it has earned endorsements from four dental organizations, including Washington State Dental Association, Oregon Dental Association, Idaho State Dental Association and Seattle King County Dental Society. The renewed endorsements from organized dentistry validate the strength of TDIC and the trust that the profession has in an insurance company that only protects dentists.

"We are grateful for these dental organizations endorsing TDIC as a recommended insurance provider," said Daniel Davidson, DMD, chair of TDIC Board of Directors. "They know TDIC has a nearly 40-year history of protecting dentists and always has the best interests of policyholders at heart."

Altogether, 11 dental associations and societies endorse TDIC, which has earned the A.M. Best Company's "A" rating for 25 consecutive years. This rating is a reflection of TDIC's financial strength and its mission to provide the best-value insurance products and related services to more than 24,000 policyholders.

"We want our members to have trust in their insurance provider, which protects their livelihood and property," said Bracken Killpack, Washington State Dental Association executive director. "TDIC's commitment to offering policyholders outstanding protection and high-quality service is why the WSDA chose to endorse this insurance company."

TDIC recently merged with Northwest Dentists Insurance Company and Dentists Benefits Insurance Company, which extends its exceptional legacy and comprehensive suite of insurance products to policyholders in 15 states.
